January 3, 2025

To Whom It May Concern,

I am pleased to write this letter of recommendation for Kabanov Artem, who served as a Front-end Web Developer and Team Lead with us at Scarinci & Hollenbeck, LLC (SH-Law) while with Mettevo. Over the past three years, Artem has been an invaluable asset to our team, especially during a critical transition period when we required immediate support following the departure of a long-term in-house developer.

Artem seamlessly stepped into this challenging role, filling the shoes of a developer with nine years on the SH-Law projects while working remotely from across the globe. His commitment was evident as he consistently adapted to our business hours and was always available to address our needs. His exceptional communication skills fostered a collaborative environment, and he worked tirelessly to resolve various issues related to databases and complex code, particularly in React.js.

Throughout his tenure with us, Artem managed numerous projects that included the redevelopment of our front-end systems, as well as the redeployment and updates of our backend infrastructure. His contributions extended across our entire ecosystem, which encompasses 12 websites. Artem played a pivotal role in facilitating communication among multiple teams — from quality control to server management, WordPress development to graphic design — ensuring that every project ran smoothly and efficiently.

Artem's unique skill set, and proactive approach truly set him apart. He is not only a talented developer but also a supportive colleague who consistently prioritizes the success of our projects and the satisfaction of our clients. His work ethic, technical expertise, and capacity for teamwork make him a standout professional in his field.

I wholeheartedly recommend Kabanov Artem for any future opportunities. His fine-tuned skills and unmatched dedication will undoubtedly make a significant impact wherever he goes. Should you need any further information, please do not hesitate to contact me.

Sincerely,
Peter S. Moeller
Chief Growth Officer
